HIT BY AN ENGINE.

An Electric Car Run Down by a Locomotive at a Crossing in Indianapolis, Ind.

EIGHTEEN PERSONS BADLY INJURED.

The Engine Struck the Front Part of the Trolley Car, Reducing it to Kindling Wood.

Many Passengers Were Pinioned Down by the Broken and Twisted Metal Frame of the Trolley Car, the Injured May Die.

Indianapolis, Ind., Oct. 20.—Lakel Erie & Western switch engine No. 64 in charge of Engineer John A. Beppley and Fireman Edward Fultz struck Brightwood car No. 284 at 13th street at 12:35 o'clock Friday night. There were 18 passengers in the car at the time and of this number 15 were more or less injured, two of them perhaps fatally.

The engine struck the front of the car, reducing it to kindling wood and carrying it for nearly 20 feet and then driving it into the rear end of a car standing on a side track. One whole side was torn out and the car was turned completely around.

Doors Could Not Be Opened.

The passengers, many of whom were in the demolished end of the car, were pinioned down by the broken and twisted metal frame. The doors could not be opened and the injured persons in their mad efforts to escape trampled over those unable to help themselves. To add to the general confusion the steam from the engine enveloped the wrecked car and it was difficult to discern the work of rescue. Some were seen to crawl away. At least half the passengers were women and their screams and the crash awoke people living within two blocks of the scene of the accident.

Retiring From a Political Meeting.

The engine was then withdrawn from Brightwood and the men hurriedly gathered up the bodies of people who had been attending the Overstreet republican meeting. When the tracks were reached the conductor, Harry Kraus, went ahead "as usual" to see that the road was clear. A Monon engine going north had just crossed the tracks and the noise made by the Lake Erie engine. He was unable to see the engine until it was too late. He yelled to the motorman and four or five passengers on the rear platform jumped to safety.

List of the Injured.

Following are the names of the injured: Arthur S. Jefferson ave., unconscious and injured internally—may die. Eaton Barnes, 349 Virginia ave., injured internally and still unconscious. Battle Gurley, injured about the head; partially unconscious. Sadie Weeks, 149 Madison avenue, injured about the head; partially unconscious, believed to be fatal. Mrs. Prudence Campbell, 406 N. West street, injured about the chest and head. Bert Baldwin, 232 E. Joseph street, back injured and right lung crushed. Dr. F. B. Brinkley, 107 Street, struck blindfold on the eye. Mr. Myers, 23 S. Oriental street, hit and back injured. Henry Triley, 1833 Temple street, foot crushed. Emanuel Confield, 716 Madison avenue, right hip injured. Charles Barnes, 405 East Michigan street, back severely injured and right leg injured. All will recover except Eaton Barnes, Bert Baldwin and Arthur Weeks, who are believed to be fatally hurt.

New York, Oct. 20.—Nicholas Scalp, a Swedish naval cook who was on the battle ship Maine when she was blown up in Havana harbor, shot and killed himself in Brooklyn Friday. Charlottesville, W. Va., Oct. 20.—The remains of the late William L. Wilson, postmaster general in President Cleveland's cabinet and president of Washington and Lee university of Lexington, were laid to rest today in the family lot at Charlottesville. The funeral train arrived from Lexington at noon and the procession to the burying ground started soon after. GIVEN TO THE JURY.

Henry Yostey's Case in Its Hands—The Condition of the Prisoner Is Much Better.

Georgetown, Ky., Oct. 20.—The arguments in the Yostey trial took up the most of Friday. Attorney Franklin, for the prosecution, closed at 7 o'clock in the evening. The court adjourned until 10 o'clock Saturday morning. The judge told them they could use their pleasure about considering the case Friday night or Saturday morning. They decided to take the papers to their rooms Friday night and Saturday morning, and they were sent to their boarding house with that understanding.

Yostey's condition Friday night was better than it was Thursday. He has taken nourishment without trouble, and the physician says his temperature, pulse and respiration are normal.

A CLOUDBURST.

The Town of Guadalupe, Mexico. Destroyed—An Appeal for Assistance.

El Paso, Tex., Oct. 20.—News of the destruction of Guadalupe, Mexico, 40 miles below El Paso, in the Rio Grande valley, by a cloudburst Wednesday night reached El Paso, and a runner who was sent to beg advances for the starving inhabitants. Guadalupe was a village of 300 people, and these depended solely on their crops and domestic animals for subsistence. So suddenly did the torrent of water descend from the hills that everything they possessed was swept away, and the inhabitants were able only to save their lives, which they did by fleeing to the foot hills. An old man and two children, besides many goats and cattle, horses and fowls, were lost.

HANGED HIMSELF.

Procured a Clothes Line and Swung From a Hook in the Door Casing.

Chicago, Oct. 20.—Within a few feet of his wife said in the same room where she was sewing and singing, John Pfeiffer Friday hanged himself to a hook in the door casing. So quickly did he fall in his death and so long was the woman with him and her song that she did not see him procure the clothes line and deliberately hang himself. It was nearly a half hour before the woman arose to leave the room and saw her husband hanging by the neck dead. Pfeiffer was out of employment and had been dependent.

REFUSED to Work.

Milford, Del., Oct. 20.—The section men on the entire system of the Delaware, Maryland & Virginia railroad Friday refused to work until the offer by the company.

It is 71 cents per bushel above the quotations current a year ago. The advance is due to activity due first, the demand and high price in the Maine explosion, and he had been unable to get solid food since. This and delay in getting an increase of pension made him very despondent.

AT A STANDSTILL.

There is Nothing New in the Strike Situation in the Anthracite Coal Regions.

ANOTHER CONVENTION IS PROBABLE.

Strikers Want 10 Per Cent. Increase Without Powder Reduction Being Considered.

Unless the Operators Recede From Their Stand, the Contest Will Continue Until They Make the Concession.

Hazleton, Pa., Oct. 20.—S. L. Morris was arrested Friday evening for an alleged attempt made upon the life of John W. Gates, ex-president of the American Steel and Wire Co. When searched at the police station two large designs upon the life of W. J. Brimson, general manager of the Kansas City & Southern railroad, whom Morris, it is alleged, had enticed to this city by means of a telegram purporting to be from Gates, was also found.

Mr. Morris was held Saturday morning by a U. S. marshal and was released on a \$5,000 bond signed by Gates, but which he subsequently violated.

Mr. Brimson arrived at the Grand Pacific hotel Friday in accordance with the appointment made in the telegram. Failing to find Mr. Gates, he called upon him in his office in the Bockey building.

Mr. Brimson originated the scheme.

After a hasty conference the two men decided that Morris originated the scheme, both having received threatening letters from him.

Morris was captured near the offices of the Illinois Steel Co. in the Rockwood district, formerly known as the Rockwood of Gates, and maintained that the latter gave him \$50,000.

Tenants of the Rookery are said to have heard the prisoner making threats to kill Mr. Gates, and the two men refrained from going to luncheon at the Grand Pacific, where according to the telegram, they were to have met.

His Plans frustrated.

A prominent official of the United Mine Workers said Friday night that the men throughout the anthracite coal field are insistent on a flat ten per cent. increase without the powder reduction being considered in figure out the present situation.

He said that the miners are to decide the powder grievance and the other convention of miners will be necessary to dispose of the question.

He said that the miners are to decide the powder grievance and the other convention of miners will be necessary to dispose of the question.

NOTCHES in HEART.

Most of the Operators Are Now Unwilling to Amend the Notices Posted at Their Collieries.

Scranton, Pa., Oct. 20.—It is a practical certainty that the miners will not be back to work next Monday, as the operators are unwilling to meet the miners' demands. The miners are bulkhead at the agreement to continue the ten per cent. offer in force despite the modifications proposed by the operators of the miners' organization.

They were all willing enough Thursday to amend their notices to conform to this demand, but Friday they seemed to have undergone a change of heart, and only one operator after any pronouncement would say outright that he would make the modification if the miners would make the amendment to the notices.

WILL NOT Buy and Sell to Mitchell.

They say it would be disadvantageous for them to come with an amendment to their notices. As one prominent operator put it: "The modification would serve our purpose, and it is to gratify a whiff of John Mitchell. We don't propose to waste any energy in bowing and scraping to Mr. Mitchell."

John Mitchell, president of the Miners' Union, has been trying to get the miners to accept the miners' organization.

MILLIONAIRE GATES.

An Alleged Attempt Made Upon His Life—S. L. Morris Is Placed Under Arrest.

Chicago, Oct. 20.—S. L. Morris was arrested Friday evening for an alleged attempt made upon the life of John W. Gates, ex-president of the American Steel and Wire Co. When searched at the police station two large designs upon the life of W. J. Brimson, general manager of the Kansas City & Southern railroad, whom Morris, it is alleged, had enticed to this city by means of a telegram purporting to be from Gates, but which he subsequently violated.

Mr. Morris was held Saturday morning by a U. S. marshal and was released on a \$5,000 bond signed by Gates, but which he subsequently violated.

Mr. Brimson arrived at the Grand Pacific hotel Friday in accordance with the appointment made in the telegram. Failing to find Mr. Gates, he called upon him in his office in the Bockey building.

Mr. Brimson originated the scheme.

After a hasty conference the two men decided that Morris originated the scheme, both having received threatening letters from him.

Morris was captured near the offices of the Illinois Steel Co. in the Rockwood district, formerly known as the Rockwood of Gates, and maintained that the latter gave him \$50,000.

Tenants of the Rookery are said to have heard the prisoner making threats to kill Mr. Gates, and the two men refrained from going to luncheon at the Grand Pacific, where according to the telegram, they were to have met.

Does Your Baking Powder Contain Alum?

Prof. Geo. F. Barker, M.D., University of Penn.: "All the constituents of alum remain (from alum baking powders) in the bread, and the alum itself is reproduced to all intents and purposes when the bread is dissolved by the gastric juice in the process of digestion. I regard the use of alum as highly injurious."

Dr. Alonso Clark: "A substance (alum) which can derange the stomach should not be tolerated in baking powder."

Prof. W. G. Tucker, New York State Chemist: "I believe it (alum) to be decidedly injurious when used as a constituent of food articles."

Prof. S. W. Johnson, Yale College: "I regard their (alum and soluble alumina salts) introduction into baking powders as most dangerous to health."

In view of such testimony as this, every care must be exercised by the housewife to exclude the over and over condemned cheap, alum baking powders from the food.

Baking powders made from cream of tartar, which is highly refined grain acid, are productive of health, and more efficient. None other should be used in leavening food. Royal Baking Powder is the highest example of a pure cream of tartar powder.

Mr. Sibley Tells

Why He "Flopped"

Congressman Joseph C. Sibley, of Pa., who was one of the most pronounced silver advocates and supporters of Mr. Bryan in 1896, is today an ardent and enthusiastic follower of President McKinley and the gold standard. He is a man of pronounced convictions and the courage and ability to express them. In a speech at Bradford, Pa., a week or two ago he gave the reasons for his change of faith in a speech that has probably been more widely published than any utterance of the campaign, barring the speeches and letters of the Presidential candidates themselves, and in response to many requests it is here reproduced in full. Mr. Sibley's speech follows:

"You charge me with changed opinions. This is true. Each day of life differs from any day preceding. The man who stands still or backs to the dead past will be left in the rear. Time makes ancient good unequal; they must onward still and upward. Who could keep abreast of truth?"

"You charge me with being a flopper. Yes, I guess that is so. If a flopper may properly be defined as one who did not know it till yesterday, is wiser today and aims for progress tomorrow, then I am a flopper. If a flopper is one who finds a position of yesterday untenable today, and positively wrong tomorrow, and seeks to leave that untenable position, the occupation of which would stultify his intelligence, warp his conscience, and work an injury to his fellows, then you may define me as a flopper. If looking at the present and trusting to a grander future, rather than facing backward to the smoldering embers of the past, constitutes a flopper, please enumerate me such."

"Whenever I see men who have been working for \$1 a day able to earn \$2, when the man who earned \$2 can have the opportunity to earn \$3, I will flop as often as it may be necessary to that condition for that man to continue."

"When from 1893 to 1896 47 per cent of the wage earners of this country were unemployed or working on short hours, and today only three-eighths of 1 per cent of the wage earners are unemployed, I will flop to help those men employed, whenever and wherever it is demanded."

"...when under a free trade tariff we saw our nation largely importing its manufactured necessities and when under this administration we are manufacturing not only for ourselves but are supplying the other nations of the world with the products fabricated by American hands in American workshops you can make a fair guess that I will flop to help that cause alone."

"Last year we sent from our American workshops to foreign nations 338,000,000 of manufactured products; this 432,000,000 of dollars and with the assured certainty that, with the President's policy maintained, those exports within six years reach more than one thousand millions of dollars annually, thereby requiring double the workshops of the present, and affording double the present opportunity for honest labor and honest capital to meet with substantial recompense, I will flop, and do until I can be right side up in line with that policy."

"When a pound of wool brings the farmer 30 cents today instead of 17 cents, and when his sheep, that were only salable at \$1 a head in 1896, are worth today \$3 to \$4 per head, I will flop whenever it is required for me to do so to help maintain that condition for the woolgrower."

"When cotton that sold for 4 cents per pound under the last administration, brings from 9 to 10 cents per pound under the McKinley administration, I will flop to help the cotton-grower."

"When we see an advance in the price of all farm products ranging from 25 to 125 per cent and my flopping from one attitude to another will help that farmer, I will try to be the first man to flop."

"When we see the furnaces blazing, forges glowing, looms weaving; when we hear shuttles clicking and spindles humming; when drawn and braced each finds fair recompence, whether in factory or in field, I will, as a man who aims to be loyal to his God, his country and his Creator, try my level best to maintain that condition, call me what you will."

"Last fall, walking after a man in your city, who was once my warm political friend, and whom I also trusted was my personal friend, I was informed that he had made more money in 1898 than he had ever made in any previous year of his life. Was it hard for me to flop to help him and others to many such years of golden harvest?"

"A Democratic friend of mine in your county, a large manufacturer of lumber, told me, much less than a year SEPTEMBER 14, 1896.

LEST WE FORGET.

GEN. S. B.

BUCKNER

Says McLinley Will Undoubtedly Carry Kentucky.

"McKinley and Roosevelt will undoubtedly receive the votes of a considerable majority of the people of Kentucky, but whether the voter will be honestly counted altogether a different matter," said Gen. Simon B. Buckner, of Kentucky, the candidate for Vice President on the Gold Democratic ticket four years ago to a New York Tribune reporter at the Fifth Avenue Hotel.

"When we see each month a surplus in our national budget instead of a deficit, when we see the amount of foreign money of England, as we did under the last administration, have loaded within the last two years to Switzerland, Germany and England more than \$200,000,000, when we see our exports doubling and our imports dividing; when we see happy faces of a well-fed and well-dressed middle class and contrasted with the faces of the Coxey army of the unemployed, when the pinched faces of hungry men and women, and little children, when we see the old man at the back of the winter's storm, sought for cold clarity and cold soup in the soup houses. God in His grace grant that you and I shall never need to offer cast prayer that it may go so guide us all in His infinite love and wisdom that no vote or act of ours, whether in public or private life, shall be responsible for the return of such conditions."

Jim Howard has been sentenced to death for killing Goebel and now Henry Youtsey is being tried for the same offense. How many different men killed Goebel, anyway?

"IF THERE IS ANY ONE WHO BELIEVES THE GOLD STANDARD IS A GOOD THING, OR THAT IT MUST BE MAINTAINED, I WARN HIM NOT TO CAST HIS VOTE FOR ME BECAUSE I PROMISE HIM IT WILL NOT BE MAINTAINED IN THIS COUNTRY LONGER THAN I AM ABLE TO GET RID OF IT." — HON. WILLIAM JENKINS BRYAN, KNOXVILLE, TENN.,

"Bryan came to Kentucky and induced all the crooked work done by his friends. He is no Democrat. The Bryanites and Goebelites do not try to justify their action further than to say

APPELLATE JUDGESHIP.

[From Louisville Commercial]

Hon. Ed C. O'Rear is the Republican and civil liberty candidate for Judge of the Court of Appeals in the Seventh district, and he expects to be elected.

It will be the State's calamity if he

shall not be elected. The perpetuation of existing conditions in the Court

of Appeals with the Goebelized organi-

zation of the Democratic party in ab-

solute mastery of every person elected

to public office would mean the com-

plete destruction of public influence

in the court of last resort of the Com-

munity. It would mean the per-

manent enslavement of a people bur-

tioes free but now shackled by the

act of the Court of Appeals.

The Republican and independent

voters of the Seventh Appellate district

cannot afford, in the grave emergency

that confronts the people of the whole

State, to underestimate the weight of

the responsibility resting upon them.

Quite as important to the cause of

civil liberty as the election of Mr.

Verkes to the Governorship, is the

election of Mr. O'Rear to the Judgeship

for which he is a candidate. Very

much more dangerous than vicious leg-

islation is partisanship on the bench.

Judge O'Rear is making a vigorous

and dignified canvas. His only

pledge to the voters of his district

is that if elected to the Court of Ap-

pals his judgments will be honest and

that they will be unbiased by any po-

litical considerations whatsoever.

He is anticipating nothing, he is promis-

ing nothing but the fearless perform-

ance of his duty. The ground of his

appeal to his fellow citizens for their

affranchisement is that on the bench he will

sustain a reign of law; that to the full

extent of his power he will labor

for the elimination of partisanship

from the judgments of the courts.

We urge the law-abiding people of

the Seventh Appellate district to rally

to Judge O'Rear's support and to elect

him by a majority that a partisan elec-

tion commission will not dare to turn

over with.

These persons who cannot under-

stand why the Hon. Adlai E. Steven-

son can run on the Kansas City plat-

form after endorsing sound money in

1892, simply admit that they are not

acquainted with the record of the man.

Mr. Stevenson is fond of holding of-

ffices.

POLITICS AND POLITICIANS.

Gen. Lew Wallace, the Indiana au-
thor, diplomat and scholar, who has at
times criticized President McKinley
generally regarding his foreign policy,
announces that he will heartily support
him for reelection.

I shall vote for President McKinley,"
said the General, "because the thought
of the election of Bryan is abhorrent to
me for several reasons. In the first
place, I hold the man responsible, for no
candidate can take nominations from
three parties without intending to fool
some one in the case of his election.
In the next place, Bryan's financial
policy is one which, if put into effect,
would bring disaster and ruin to the
country. Free silver is a menace to
the business interests of the country."

"Finally, I am opposed to Mr. Bryan,
as I hold him directly responsible for
the death of every one of the brave
American soldiers slain in the Philip-
pines. It is the encouragement held out
to the rebels by Mr. Bryan and others
of his ideas that keeps up the struggle
there. The war was over, but the sym-
pathy and promises held out by Mr.
Bryan caused the fighting to break out
again. It is time to bring him to trial
and conviction, to fight with more
determination to our own ends, for they have slowly
and surely been teaching their adver-
saries how to fight. For each man who
falls in the fight, there are two others
who follow him. The thought of electing
such a man as this to the Presidency is utterly
repugnant."

GRANT FOR MCGINLEY.
Bishop Abraham Grant, of Indianapolis,
who is attending the North American
Congress of the African M. E. Church
in Oxford, Okla., details the story
of his efforts to secure a grant
in aid to 28 Negroes of Oxford.
Bishop Grant said that he was firmly
convinced that for the best interest of
the country and its prosperity Presi-
dent McKinley should be re-elected.

BETTING 3 TO 1 ON MCGINLEY.
A New York dispatch says a number
of odds of 3 to 1 are being offered on
Wall Street Saturday on McKinley at
2 to 1, without finding any Bryan
money. Toward the close of the busi-
ness day the odds were advanced to
1 to 1, representing a bet of \$100,000
that has placed a good deal of money in
bets since the campaign opened and
there appeared to be no Bryan money
in sight even at such long odds as 3 to
1 on the general.

FOUR MORE YEARS OF "MC."
At Mowers, Lewis County, Ky., a
civil service employee, who has
agreed to pay \$100 a month to
Henry A. C. Cole, a former
judge of the Court of Appeals, has gone on
the stump for McKinley and Verkes. He
has been a leading Democrat and a
leading business man when called on
to speak, he always said, "All I want is
four more years of 'MC'." The speech
brought down the house. The Democrats
tried to form a Beckham Club, but only three men applied, and the
anticipation ended.

HE RINGS UP FOR GOEBELISM.
Hon. Allen D. Cole, a prominent lawyer
of New Haven, Conn., has agreed to
ring up for Goebelism. Judge A. C. Cole has gone on the
stump for McKinley and Verkes. He
has been a leading Democrat and a
leading business man when called on
to speak, he always said, "All I want is
four more years of 'MC'." The speech
brought down the house. The Democ-
rats tried to form a Beckham Club,
but only three men applied, and the
anticipation ended.

IDENTITIES FOR VERKES.
C. W. Jones, editor of Georgetown,
was in New Haven a few days ago, says
the Louisville Commercial Tribune,
and a man who has been trying to sell
him his services has voted anything
but the Democratic ticket. It has been
intended making a change this year;
but he is an enthusiastic McKinley man,
and not only votes for him, but was
working hard for him. Among those
present were Col. George Washington
Jones, R. L. Lovett, George Denison,
and others. Col. Jones spoke in favor
of McKinley and Verkes.

NEW SIGN MCGINLEY WILL WIN.
John C. New, Harrison's close
political friend and owner of the In-
dianapolis Journal, who is known in
the State and National politics as a
man of great influence, says the outlook
for McKinley and Roosevelt will be

glorious. They will carry all the States
elected. He thinks the election will be
decided in the West, and that the
West there is danger of the Repub-
lican votes being counted out. I think
McKinley generally will be as large as
in 1896. The West will carry him
handsomely. The Republicans now have
no fear is overconfidence."

At the close of Mr. Verkes' speech
two well known Rowan county Geop-
politicians of the first rank, George
Garrison, of Lumberton, and Attorney James
Whitt, announced that they would vote
this year for McKinley and civil liberty.
